

Programme

9:30 - 12:30

Capacity building and integrated service delivery

- Presentation (to practitioners from the USSM and UEPE) of the findings from the national and European research (in relation to the situation in Turin) on the challenges to radicalisation interventions in community justice settings.
- Reflections on the configuration of networks of involved and potentially involved actors and the obstacles to their involvement in target group interventions in light of the experiences within the MATES project and in reference to the National Pact for an Italian Islam signed by the Ministry of Interior.

14:00 - 17:30

Meeting(s) with network actors to share the intervention strategy targeting individuals at risk of violent radicalization in order the test training material.

- Presentation of the MATES project and the common curricula for a multi-actor strategy for the social reintegration of youth involved in the violent radicalisation process with the aim to test some of the didactic units regarding ethical questions that arise with the use of multi-actor interventions in community justice settings that focus on social reintegration, the disengagement of radicalised individuals and use of counternarratives.
